4. First Aid Measures

Eye Exposure: Immediately flush eyes with copious amounts of water for a minimum of 15 minutes. Seek immediate medical attention if adverse effect occurs.

Skin Exposure: Wash skin with soap and water. Remove exposed or contaminated clothing, taking care not to contaminate eyes. Seek medical attention if adverse effect occurs.

Inhalation: Move person to fresh air. If necessary, use artificial respiration.

Ingestion: If the material is swallowed, seek medical attention or advice.

5. Fire Fighting Measures

Artificial Stone Surface Products can be combusted only with difficulty. Decomposition product resulting from the polymer and pigments degrading at elevated temperatures include various hydrocarbons, carbon dioxide, carbon monoxide and water. Fumes of metal oxides and mica particles could also be released.

Extinguishing Media

Water, Dry Chemical, CO₂, Foam.

Fire Fighting Instructions

Keep personnel removed and upwind of fire. Wear self-contained breathing apparatus.

6. Accidental Release Measures

Cleanup and Disposal of Spill: Solid slabs can simply be gathered as necessary. If large amounts of dust or wastes are created by the cutting process, then vacuum or sweep up material avoiding dust generation by dampening spilled material with water to avoid airborne dust. Wear sufficient respiratory protection and protective clothing where necessary. If large quantities of this material enter the waterways contact the Environmental Protection Authority, or local Waste Management Authority. Dispose of waste in accordance with local, state and federal regulations.

7. Handling and Storage

Handling/Storage: Avoid breathing dust. Wash hands before eating, drinking, smoking, or using toilet facilities. Wash thoroughly after work using soap and water. Good industrial hygiene practices should be followed when handling this material. Product is heavy and breakable; handle with care to avoid injury and prevent damage.

8.2 Engineering Controls

Exposure standards *refer local state regulators

Avoid inhalation. Use in well-ventilated areas. Where an inhalation risk exists, mechanical extraction ventilation is recommended. Wet cut, polish, sand, grind, or drill only. Maintain dust levels below the recommended exposure standard.

Personal Protective Equipment:

Eye / Face: If cutting or sanding with potential for dust generation, wear dust-proof goggles.

Hands: Wear PVC, rubber, or cotton gloves when handling material to prevent skin contact.

Body: Not required under normal conditions of use.

Respiratory: Avoid uncontrolled dry cutting, sanding, polishing, grinding, or drilling, if alterations are unavoidable use a half face (negative pressure) mask with minimum P2/N95 particle respirator & tools which have water suppression & on tool dust extraction with H class rating. Consultation with relevant State Worksafe offices for further details is recommended.
